## About BIR

**Barnard Institute of Radiology**, attached to Madras Medical College & Rajiv Gandhi Government general Hospital, is one of the oldest radiology institutes in the world. It has a long and interesting history. It was established on March 26<sup>th</sup> 1934. Since the beginning the institute was the fore runner in being equipped with latest X-ray units. A 400 KV x-ray unit was introduced at the time of Captain T.W Barnard, long before England, Europe and America had been X-ray services. The Institute is abreast with modern medical equipments and fore runner in medical education. This was due to the foresight and support by the Government of Tamilnadu and the hard work done by the faculty of Barnard Institute of Radiology over generations.

To disseminate knowledge and updates in the field of radiology, the website [www.barnard.in](http://www.barnard.in) is maintained by the institute. There will be “Quiz of the week” in which radiologists throughout the world are participating. The winner will be awarded suitably in the “BIR PG primer course” and BRACE CME conducted by the institute every year.
